ADAPTATIONS TO YOUR HOME

Did you know, Manor Estates can help you enjoy the comfort of your own home and maintain your independent living for longer?

How can we do this?

Each year we receive funding from the City of Edinburgh Council to undertake major medical adaptations works to our homes. In the last year we have installed 10 major adaptations to tenant's properties at no cost to the tenant.

These can include:

Installation of a stair lift

Removal of the bath and installation of a Level Access shower tray or wet floor shower area

Access ramp to your home

An over-bath shower

Specialised toilets that wash & dry

To qualify for consideration for any of the above works, Manor Estates would need a recommendation from an Occupational Therapist (OT).

This can be arranged by contacting Social Care Direct on 0131 200 2324 who would take an assessment of your needs in your home. Alternatively, you can contact your GP practice for more information or advice.

We would be unable to proceed with an adaptation request unless we have an OT recommendation.

Please contact the repairs team for further details or any queries you may have.

We can also supply minor medical adaptations such as grab rails & handrails, threshold adaptations, hearing impairment and visual impairment adaptations.

Again, please contact the repairs team on 0131 510 8540, option 4 for further information.
